    - AubRUG upcoming events (Sam Singer, AubRUG/CLA)
    - Other announcements

- 3:30pm — Featured Speaker (Jess Brown, BrownWebDesign.com)

    "Why You Should Learn Ruby on Rails"

    Which tools for building web applications should you take the time to learn and become experienced with? Ruby on Rails is a web application framework designed to build database backed web applications. It is especially desirable for developers and companies who want to quickly build web applications that can scale and evolve over time. In this presentation we'll learn how and why and even do some live coding and demos.

- 4:45pm — Dismissal (Sam Singer, AubRUG/CLA)
